(The views expressed in this publication do not necessarily reflect the views of the Cape Clivia Club)

OUR 2006 SPRING CLUB MEETING

On Saturday morning the 19th of August a large number of our members met at the Durbanville Library to promote their mutual interest in Clivia. John van der Linde presided in the absence of John Winter.

It was a bustle as sellers were punting their books, seeds and plants. Felicity Weeden was selling raffle tickets. There was a lot of excitement in the air as the first Clivia have just started budding. Some of the members brought plants already in flower for others to admire.

The meeting opened with John van der Linde inviting the new members to come forward to get their usual Yellow seedlings.

One of these new members was a granddaughter of Cassie Carstens. While she is still very young her keen interest in Clivia was already quite apparent.

Cassie's granddaughter

HONORARY LIFE MEMBERSHIP

Claude and Jenny Felbert were elected Honorary Life Members of the Cape Clivia Club after this had been motivated by Ian Brown as follows:

Mr Chairman, I have the honour to present to this Meeting Claude and Jenny Felbert for Honorary Life Membership of our Club.

The Cape Clivia Club grew from a small interest group of people who assembled at Kirstenbosch one Saturday morning in October 1996 in response to an invitation placed by John Winter in *Veld and Flora* to learn about pollinating *Clivia*. Claude was one of this group, and when John offered a then rare young yellow *Clivia* plant to all who had attended

the meeting, Claude immediately offered to collect and deliver them to everyone personally. His enthusiastic, generous and helpful spirit has prevailed throughout the history of the Club.

Claude has always taken an active role in all Club activities and has been on the Committee from its inception. The Club was challenged in 1998 to host the Second Clivia International Conference. Claude was on the organizing Committee that helped to make this a memorable event. At the Conference he initiated and conducted an Auction of rare *Clivia* plants which was a great success.

Claude has always contributed his expertise in not only photography to all who consulted him, but his knowledge and experience of computers, graphic design and printing have been vital to the publication of the Clivia Society's Yearbooks, which were an initiative of our Club. He has been one of the editorial team for every Yearbook and, starting with Yearbook 6, has also been solely responsible for their graphic design and for ensuring that all photographs submitted for publication are properly prepared.

John van der Linde congratulating Claude and Jenny

Likewise, he gave generously of his time and expertise to make the publication of our Clivia Colour Chart possible, and has continued to do so in the more recent research into and planned production of a more comprehensive Colour Chart.

Claude arranged e-mail and fax facilities for our Club and we were also able to rely on him to investigate and recommend investment in a digital projector which has significantly upgraded the standard of talks given to members, as photographs and images can now be pro-

jected directly from a laptop computer.

Claude has actively participated in every annual Show as a coordinator. Each year he has arranged the posters for the Show. He has also taken responsibility for the photography at every Show. He will always be admired for the certificates he has produced overnight to be awarded to winners which even bore the photograph of the winning plant. He himself has also been a winning exhibitor.

And with Claude's great knowledge of wine, every year he has arranged the liquid refreshments for the opening party attended by judges, exhibitors and members involved in the show. He has also generously donated wine to guest speakers.

Claude has set an example for all by his unselfish, generous and tireless contribution of his talents and knowledge to the Club over the ten years it has been in existence, always given with commitment and enthusiasm.

But make no mistake – there is no way he could have achieved any of this without Jenny's patience with, and understanding of, what he has taken on and her own sacrifices and adjustments to help him achieve what he has.

2006 SHOW

Next Johan Schoombee and Gerrit van Wyk outlined some salient points about the 2006 Show. The judging received more attention as we are trying to build a bigger panel of judges and as our judging will come under greater scrutiny because certification of winning plants with the Clivia Society will be introduced this year.

Johan also outlined some of the changes made to the classes. Show Schedules and entry forms were available at the meeting and they are also attached as addenda to this newsletter for members' convenience.

Gerrit appealed to the members to become involved in the show by volunteering their names to Eugene Malherbe. He also covered several logistical issues concerning the show arrangements. Entries must be submitted by 5pm on Monday 18 September and any changes confirmed by Wednesday 20 September at 5 pm.

Ian Brown also encouraged all the members to bring their plants to the show, especially those that have not yet participated.

Apart from the Show, two displays were to be held at Kirstenbosch over the weekend of the 2-3 September and again from the 30th September – 1 October.

The raffle plants were then introduced to the members before breaking for refreshments. During this break many a story was told and advice asked or given.

JOHAN'S SLIDE SHOW

After the break Johan Schoombee continued his slide presentation of Miniata colours, concentrating on the flower centre colours. We first saw reds, oranges and pastels with f green, yellow and whitecentres followed by yellows with green throats.

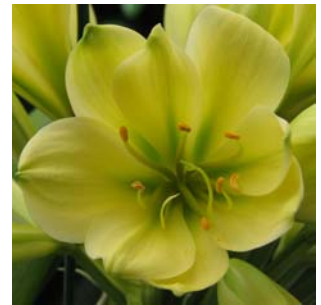

Christo Lotter's 'Minè'

Charl Coetzee's 'Green One'

Johan Schoombee's green throat

Gerrit van Wyk's Nakamura multipetal green throat yellow

The raffle was then drawn and the winners went home with their new additions to their Clivia families.

2006 SHOW CLASSES

An exhibitor may enter and exhibit up to 3 *Clivia* (or fewer or more in the discretion of the Show Manager) in any of the following Classes at the Club's Shows and Displays. Except in the Other Species Class, a minimum of 5 entries (or fewer at the discretion of the Show Manager) is required to make a class viable. The Show Manager may, in his/her discretion, consolidate a non-viable Class into another Class and may split a Class which has too many entries into two or more classes, provided that split or consolidated classes have the same allocation of judging points. All the colours are referenced to the Clivia Colour Chart or in short "CCC".

CLASS 1: **Orange/Red** *C.miniata* in flower with open or reflexed standard flowers, with or without green throats. CCC Orange/red, Red and Dark Red range, with additional points awarded for darker colour.

CLASS 2: **Bronze** *C.miniata* in flower with open or reflexed standard flowers with or without green throats. CCC Bronze and Burnt Orange.

CLASS 3: **Orange** *C.miniata* in flower with open or reflexed standard flowers, with or without green throats. All remaining orange colours on the CCC, except Light Oranges catered for under classes 12 and 13.

CLASS 4: **Orange - Green Throat.** *C. miniata* in flower as in classes 1 to 3 with green throats.

CLASS 5: **Orange - Tulip** *C.miniata* in flower with tulip standard flowers in any of the colours of Classes 1 to 4.

CLASS 6: **Yellow - Narrow Petal** (<=28mm) *C.miniata* in flower with open or reflexed narrow tepal standard flowers, with or without green throats. CCC in the range from Cream up to and including Greenish Yellow, but excluding Deep Yellow.

CLASS 7: **Yellow - Broad Petal** (=>28mm) Yellow *C.miniata* in flower with open or reflexed broad tepal standard flowers., CCC in the range from Cream up to and including Greenish Yellow, but excluding Deep Yellow.

CLASS 8: **Deep Yellow** *C.miniata* in flower with open or reflexed standard flowers, with or without green throats. CCC Deep Yellow with additional points awarded for deeper colour.

CLASS 9: **Yellow - Green Throat** *C. miniata* in flower as in Classes 6 to 8 with green throats.

CLASS 10: **Pinky/Peach** *C.miniata* in flower with open or reflexed standard flowers.

CLASS 11: **Apricot/Peach** *C.miniata* in flower with open or reflexed standard flowers.

CLASS 12: **Dark Peach** *C.miniata* in flower with open or reflexed standard flowers.

CLASS 13: **Pastels** *C. miniata* in flower with open or reflexed standard flowers with a pastel colour other than those described in Classes 10 to 12.

CLASS 14: **Multipetal** *C.miniata* in flower with open or reflexed standard flowers. At least 60% of flowers shall have 7 or more tepals.

CLASS 15: **Spider flower.** *C. miniata* in flower with spider tepals of any colour. The tepals must not overlap and must have a length to width ratio greater than 5:1.

CLASS 16: **Unusual flowers.** Flower types and colours which do not fall within any of the specific show classes for miniata in flower.

CLASS 17: **Broad leaf – in flower.** *C.miniata* in flower with leaves over 90mm wide.

CLASS 18: **Compact – in flower.** *C.miniata* in flower with leaves 76-90mm wide and up to 400mm long.

CLASS 19: **Dwarf – in flower.** *C.miniata* in flower with leaves 60-75mm wide and up to 250mm long.

CLASS 20: **Miniature - in flower.** Any shape of leaf, including any type of variegation, but no leaf longer than 180mm. Points will be awarded for shorter leaves.

CLASS 21: **Broad leaf – not in flower.** *C.miniata* not in flower with leaves over 90mm wide.

CLASS 22: **Compact – not in flower.** *C.miniata* not in flower with leaves 76-90mm wide and up to 400mm long.

CLASS 23: **Dwarf – not in flower.** *C.miniata* not in flower with

leaves 60-75mm wide and up to 250mm long.

CLASS 24: **Miniature – not in flowers.** Any shape of leaf including any type of variegation, but no leaf longer than 180mm. Points will be awarded for shorter leaves. Plants will have a minimum of 10 leaves.

CLASS 25: **Dwarf variegated.** *C.miniata* with or without flower. Leaves 60-75mm wide and up to 250mm long. Longitudinal stripes of any width distributed across the leaves in any combination of dark green, light green, yellow, grey or white.

CLASS 26: **Compact variegated.** *C.miniata* with or without flower. Leaves 76-90mm wide and up to 400mm long. Longitudinal stripes of any width distributed across the leaves in any combination of dark green, light green, yellow, grey or white.

CLASS 27: **Broad leaf variegated.** *C.miniata* with or without flower. Leaves over 90mm wide. Longitudinal stripes of any width distributed across the leaves in any combination of dark green, light green, yellow, grey or white.

CLASS 28: **Narrow leaf variegated** *C.miniata* with or without flower. Longitudinal stripes of any width distributed across the leaves in any combination of dark green, light green, yellow, grey or white

CLASS 29: **Unusual leaves.** Leaf types that does not fall in any of the classes 17 to 28.

CLASS 30: **Other Clivia species - in flower.** Any other species of Clivia than *Miniata* in flower. Form of umbel, colour, shape and number of flowers are taken into account.

CLASS 31: **Interspecifics.** Any crosses of *clivia* species in flower. Form of umbel, colour, shape and number of flowers are taken into account.

CLASS 32: **Clivia - in seed,** with or without flowers. Points may be deducted for spent berries or removed pedicels.

CLASS 33: **Own Breeding.** Any *Clivia* in flower, which the exhibitor has bred. See rule 16.

CLASS 34: **Novice plants.** Any species of Clivia, with or without flower, owned by a person qualifying as a Novice according to these rules. Judged as if they were in their own class, then compared for final evaluation. See rule 17.

CLASS 35: **Orange first time in flower.** Plants grown from seed flowering for the first and must be the first flower of the season, excluding suckers,

which would qualify under Classes 1 to 5. Pot not to exceed 20cm in diameter.

CLASS 36: **Yellow first time in flower.** Plants grown from seed flowering for the first and must be the first flower of the season, excluding suckers,

which would qualify under Classes 6 to 9. Pot not to exceed 20cm in diameter.

CLASS 37: **Other colours first time in flower.** Plants grown from seed flowering for the first and must be the first flower of the season, excluding suckers, which would qualify under Classes 10 to 15. Pot not to exceed 20cm in diameter.

CLASS 38: **Ideal pot plants.** Plant in flower with leaves not longer than 50 cm, in a pot (not plastic) with an internal diameter not exceeding 30 cm in diameter, suitable for display indoors. A plastic pot may be hidden inside the display pot.

CLASS 39: **Specimen plants.** Any *clivia* species of the same clone with at least three crowns in flower.
